Outstanding issues
Attached document:
Time periods in DDC 930 Archaeology. Revised so it only includes proposals not yet incorporated in DDC.
8. Geographic division on country level and for areas within a country in 930/T2--3
Any outstanding issues?
9. Remaining tasks of the group. How do we proceed? Some possible topics:
 - Archeology and prehistory of countries not mentioned in 930/T2--3:
Should we try to get more areas into 930/T2--3? Is it possible?
Should we propose appropriate expansions of 940 instead?
 - Adding more cultures in notes to help the classifier
 - The confusing mixture of prehistory and archaeology in 930 - should archaeology and prehistory be separated?
 - The fixed end date of 930, that results in works on archaeological findings from e.g. Middle Age being classed in other divisions.
 - The scattering of archaeological works throughout the schedule
